MANY BAD COINS IN CIRCULATION

The Market House Merchants
Turn Down Dozens

United States Secret Service Men to
Take Up Clues to Identity of
Makers.

BELIEVED TO BE IN COUNTY.

Paducah probably will be the scene of a vigorous investigation in the near future, by the United States secret service, to run down the source of the large amount of counterfeit coins now being circulated, not only in the city but throughout the county. United States Marshal Wade Brown is working on the case and has orders from the secret service superintendent in charge of this district, to hold every counterfeit coin he can secure, for evidence in any investigation which the service may begin here. All persons who have counterfeit coins passed on them, or attempted to pass, should notify Marshal Brown.

It is the opinion of Marshal Brown that the coins are made in McCracken county. This county has been particularly the scene of a heavy infiltration of the circulation by counterfeit coins. The coins most frequently found are half dollars and dollars. They can be detected easily by a novice, as they are much lighter than the genuine coins. They are otherwise first-class imitations. A few of these coins met with now and then would not be significant, and could be attributed to importation. But the number that have been reported from several sources, is too large to admit of any other theory but that a deliberate attempt is being made to introduce them into circulation in Paducah and McCracken county, and probably that they are made in the city or county.

Last Saturday, Henry Beyer, a butcher on market reported to Marshal Brown that no less than eighteen counterfeit coins had been turned down by him. He could detect them easily by the sound when they were thrown down on the marble slab on his counter. H. B. Siltzinger, another butcher on market also reported having turned down a half dozen counterfeit half-dollars. Neither of these men think the persons who offered them in payment for meat, were conscious of their worthlessness. The coins have been put into circulation and are scattered all over the city. One of the clerks in the Siltzinger store, said he had run across several counterfeit half-dollars, similar to the ones met with in the city, at Epperson, five miles out in the county. Other points in the county have reported the coins.

Marshal Brown was at the market this morning trying to find a clue. He goes to the market as a center of trade, because the large amount of money handled and the variety of persons doing business there make it a likely place to strike a clue. At the box office of the theater is another place where the counterfeit coins are offered. It being another center of circulation. Garner Bros. furniture store had a counterfeit dollar passed on them Saturday, which Marshal Brown has, but they do not remember the person from whom it was obtained. F. N. Gardner & company, furniture dealers, had Marshal Brown come down this morning at 9 o'clock to look over their cash for counterfeit coins. Other stores are receiving the coins.

It is the large number in circulation that is causing the attention of the secret service, and once or twice lately, a detective has been in the city in disguise looking over the field. Marshal Brown has several other clues, as to where the coins are made in this county, which he will turn over to the secret service men to run down. The coins have a dull color and the dollar has is dated 1890.

Luther Spratt, colored, charged with passing a counterfeit dollar on Emma Jones, the young daughter of George Jones, a fruit dealer on market, waived examination and was held over under a \$100 bond. The negro bought five cents worth of fruit, it is alleged, and received 95 cents in change. Spratt is prepared to prove by good witnesses an alibi.

Judge D. G. Park attended court in Mayfield yesterday.

WEATHER FORECAST.

THREATENING.

Threatening, probably showers to night. Wednesday fair and cooler. Highest temperature yesterday, 75; lowest today, 68.

YARDS CLOSED.

Loraine, O., March 19. — Forty fitters at the yards of the American Building company joined in strike today. This makes 1,800 men idle. That number remained at work after the strike was called two weeks ago. This will probably close the yards.

BOYS STRIKE.

Anderson, Ind., March 19. — Thirty boys employed at the Pennsylvania Glass factory, struck yesterday. The factory was closed today. Police were called to protect the property. Strikers led by a boy eleven years old, demand an increase in wages.

WILL BE LYNCHING.

Farmington, Ga., March 19. — A posse is in pursuit of an unknown negro, who last night assaulted the wife of former Mayor Colver. The woman is in a serious condition. Her two-year-old child is dead, with its head almost severed, the negro being angered by the child's outcry, when the attack on the mother was made. There is no doubt of a lynching if he is captured.

FRISCO GRAFT.

San Francisco, March 19. — After a month's persistent work District Attorney Henry has secured evidence of graft which will certainly send some men in high places to prison. Hundreds of indictments are promised. The prosecution is furnished with a general schedule of graft rates paid supervisors, although it is conceded in some instances the tariff was graded. Fourteen supervisors have confessed.

VIKING CAPSIZED.

Copenhagen, March 19. — Fifty workmen it is believed were drowned as result of the capsizing of the Danish training ship Viking today. The ship was undergoing repairs and four hundred workmen were aboard. A storm of great intensity suddenly turned the ship over.

SMITH CASE.

Louisville, March 19. — The case of W. B. Smith, the banker, was continued in federal court until Thursday, March 28.

GRAIN MARKET.

Cincinnati, March 19. — Wheat, 79; corn, 50; oats, 47.

THAW TRIAL.

New York, March 19. — The morning session of the Thaw trial was devoted to the cross-examination of Alvin Karpis by Jerome, who pled the witness with questions but failed to get him to say Thaw was sane at the time of shooting White.

ULTIMATUM.

Cleveland, O., March 19. — The executive board of the International Brotherhood of Boilermakers and Iron Ship Builders issued an ultimatum today to E. H. Harriman that a strike will be decided on all his lines within 48 hours unless the officials of the Chicago & Alton come to terms with the boilermakers on that line on a strike since February.

FEARS DISASTER.

London, March 19. — Because the world has betrayed no signs of earthquake for the past two weeks, which is not a normal condition, John Milne, the seismologist, says a disaster is threatening.

STREET PAVING WILL BE DELAYED

Awaiting Completion of Sewer
in District No. 2

Pipe Must Be Laid Down Broadway
and Connections Made Beyond
Ninth Street.

THE NINETEENTH STREET WORK

It will be well along in the summer before Broadway and Jefferson street are paved from Ninth street to Eleventh street. The ordinance has been passed and is in the hands of the board of public works, but sewer connections must be made in that territory before the paving is done.

At present the big main of district, No. 2, is extended as far as Twelfth street and is being laid from Broadway to Clay street. As soon as the weather settles so that the work can be prosecuted without delay, the pipe line from Twelfth street to Ninth street along Broadway will be laid. City Engineer Washington does not wish to dig up Broadway until he is certain the work can be pushed rapidly and the trench covered in the minimum time. After the pipe is laid, people must be given time to connect, before the stillthick surface is spread, as the city engineer hopes there will be no necessity of cutting through the new surface for lateral trenches.

Nineteenth Street Work. The improvement of Nineteenth street from Broadway to the Mayfield road is fast developing into one of the very knotty questions for the general council. Last night in the council meeting many residents were on hand to urge that the street be improved, and some few were present to protest against sidewalks, an ordinance having been introduced for pavements, curb and gutters the entire length of the street.

City Engineer Washington advised that it would be impossible to span a ravine with sidewalks on a newly made fill, and that there is little chance of disposing of storm water. If pavements are built it will force a great volume of water on private property, precipitating suits for damage against the city.

The inclement weather has made it impossible for the traction company to continue work of putting down its tracks, and until it does finish this work the street cannot be properly improved. Residents are loud in their protests against the delay, and it will be two weeks' longer before the ordinance providing for the street improvements goes through both boards.

PADUCAH DAY AT JAMESTOWN FAIR

"Paducah Day" may be observed at the Jamestown expedition, all depending on the action of the general council and the representative business men of the city. Mayor Yelzer has a letter offering Paducah this honor, and will present it to the board of aldermen Thursday night. The letter is from C. Brooks Johnson, at Norfolk, Va., chairman of the board of governors, and states that it is the desire of the board to create a "Paducah Day" in the "special events" to be arranged for the expedition.

"I consider this a great honor," Mayor Yelzer stated, "and hope that it will prove as great an advertisement to the city as it promises. I am sure we shall accept the invitation and shall present the matter to the council at once."

Mayor Yelzer received the letter March 4, but mislaid it, not discovering it until today.

BASKET FACTORY WILL RESUME WORK TOMORROW.

No agreement has been reached between employees and the management of the Margenthaler-Horion Basket company and the factory will start tomorrow morning if it is necessary to secure new hands. This statement was made today at noon after it was seen that men would not return to work today. They will be given an opportunity to return to work tomorrow.

BOYS GRATEFUL FOR ASSISTANCE

Wish to Thank Speakers Who
Defended Their Rights on
Sidewalks Before Board of
Councilmen

TWO SIDES TO THE QUESTION.

All Paducah is rent and torn by the agitation to stop roller skating on concrete sidewalks. Mayor Yelzer thinks that roller skating with steel rollers on concrete sidewalks is injurious to the sidewalks and several others who have taken the trouble to investigate are of the same opinion.

"If roller skating on the streets is permitted and the pavements are worn out," Attorney J. D. Mook suggested, "who is to pay for the damage? Contractors will not repair them because it is not ordinary traffic that causes the wear, and I doubt if the city will stand the expense realizing that the contractor has a five year maintenance bond. It may entail damage suits."

This is one view. Physicians generally favor the sport, because they say it is the most healthful that could be devised, being in the open air. Some of them suggest that the children are more important than the sidewalks, and if the concrete sidewalks will not support the skaters that will. Others point to the fact that Paducah is without parks, where children may play and the sidewalks offer the only solution. A skating rink is out of the question for most children, and it would lack the element of fresh air, on which physicians base their approval.

The boys are wise and yesterday afternoon a delegation of them waited on Hon. Hal S. Corbett and induced him to speak a word in their behalf to the general council, which he did. It now seems likely that the general council will find the subject a little too hot to handle and let it drop.

The boys telephoned to THE SUN today requesting that Hon. Hal Corbett, Col. Gus Singleton and Capt. W. H. Patterson be thanked for fighting for the skating privilege.

MAD DOG KILLED.

Bit Several Others Before Policeman
Dispatched It.

A small black dog suffering from a fully developed case of rabies scattered residents on Broad street this morning about 9 o'clock, and after biting four other dogs, ran under a house at 1716 Broad street, and hid. Patrolman Sam Howell was called, and with his 45 caliber Colts began firing under the house at two pairs of shining eyes. He missed the fire nine shots, but the tenth told and he then left to chase the other four and dispose of them. The dog did not bite any one but several children narrowly escaped it.

ENGINE UPSETS; KILLS ENGINEER

Rural Tate, of Paducah, Meets
Death on Big Four Railroad
Near Mt. Carmel, Ill., Leaves
Wife and Family

BODY WILL BE BROUGHT HERE.

Caught in the cab of his overturned engine, Rural Tate, of 2321 Jefferson street, this city, met instant death at Mt. Carmel, Ill., yesterday on the Big Four. The body will arrive here this afternoon, and his numerous relatives have been telegraphed and will probably come tonight.

Rural Tate was an engineer on the Big Four, leaving Paducah only five weeks ago to accept the position. He was 30 years old, and was born in Union county, Kentucky. He was "trying out" on the Big Four, and when satisfied that he liked the run, he would have sent for his family, who reside here. He leaves a wife and five children and the following brothers and sisters: Gus Tate, the grocerman, of this city; George Tate, Sturgis, Arch, Tate, county; James Tate, Evansville; Mrs. H. F. Hammock, Evansville; Mrs. Alvin Strange, Washington, D. C., and Mrs. Henry Dulaney, Burdley, Ky.

Undertaker Guy Nance will take charge of the body on arrival, and the funeral will probably be held tomorrow afternoon.

WASP ABANDONS OHIO RIVER TRIP

The Wasp incident probably is closed with the announcement today that Commander J. S. Croghan, Past Assistant Surgeon Rennie, Chief Yeoman Schlorer and Hospital Apprentice Lipscombe will arrive tomorrow on Thursday to open a recruiting office here for one day. They will be quartered on the third floor of the postoffice. This was the substance of a telegram received last night by P. J. Cheever, the advance agent of the Wasp, and he left immediately for Hickman. It was reported this morning that the Wasp had come on this side of the bridge at Cairo, but the rumor could not be authenticated.

CONTRACTOR WEIKEL LANDS ANOTHER JOB.

Contractor Weikel returned today from Clarksville, Tenn., where he was awarded the contract to construct a new \$35,000 High school. The building is to be brick and stone construction, three stories and a basement, and is to be completed by August 1. Mr. Weikel scored quite a coup in getting the contract. He was not the lowest bidder, but the award was given him because he had made such a splendid record for quick and good work in erecting big buildings for a large tobacco concern at Clarksville.

Local River Conditions Await
Developments of Fast Approaching Storm Period, Coincident With Tide

LITTLE DAMAGE APPREHENDED.

Held in the balance by the receding waters above and the beautiful weather here, the flood in the next few days either will go down without any damage resulting, or if the March equinox finds the river at its present high stage, and should come even in ordinary severity, the extent of the rise here may establish a new record. The March equinox with its high winds, and usually accompanying heavy rains, coming on top of present conditions might be disastrous in the extreme. It is due. Sometimes the equinox comes a few days earlier, sometimes a few days later, but always near March 21.

From March 19 last year, until March 24, four inches of rain fell. That much rain at this time would be sufficient to sway the balances in favor of much higher water. This summer weather is slightly out of season and may be the forerunner of a cold spell and in the transition, rain probably will fall. March 20 last year a heavy snow fell here for a while. It is certain that this kind of weather is not permanent and if the change finds the river at its present stage, even if no rain falls, the high March winds would be sufficient to do damage. Wind can whip an ordinary stage into dangerous proportions and with the river only a foot under the flood stage for this point, river craft and river front interests might suffer severely.

The river rose 1.2 in the last 24 hours. The stage this morning was 38.8. Forty feet is the flood stage here, and the stage this morning was 6.9 feet below the January high record of 45.7. If no new flood starts down from Pittsburg and the tributary rivers remain normal, the river here probably will not go over 41 or 42 feet. The weather will determine the stage and with the March equinox due, it is feared may determine it higher.

AUGUSTA HAS BIG FIRE THAT DESTROYS NEWSPAPER.

Augusta, Ga., March 19. — Fire, which started in the job office of the Augusta Chronicle this morning, destroyed the main office of the Western Union Telegraph company, the Union City ticket office and the Chronicle building. Losses are estimated at \$100,000.

ST. NICHOLAS HOTEL ENTIRELY REFURNISHED.

The St. Nicholas hotel, which has been undergoing a general repairing throughout, is now completed. Mr. E. D. Thurman, the proprietor, has had the hotel repapered and painted inside and out and new furniture put in most of the rooms and the office.

BEGIN PARK WORK EARLY IN APRIL

Plan of Commissioners Who
Ask Council's Permission

Site Between Broadway and Kentucky Avenue At Tenth Street Will Be Improved.

LANG PARK IMPROVEMENTS

If permission is secured from the general council the board of park commissioners will commence at once the work of improving the proposed park site on the 100 foot strip purchased by the city as a continuation of Tenth street between Broadway and Kentucky avenue. Dirt for filling in the old tobacco warehouse site will be secured from the sewer excavations. A driveway will be constructed on either side of the strip and the center prepared for park purposes. This is the only down town park site Paducah has and the commissioners feel the urgent necessity of improving it without delay.

Lang park work will commence April 1. A concrete curb will be built around it and from the curb to the center, where the Confederate monument it is to be erected, the park will be gradually terraced. A fountain will be placed on the grounds and the numerous trees already there will make the park a thing of beauty. The commissioners will spend \$7,100 in improvements this year.

If arrangements can be made a river front park will be constructed this year.

NO WORD RECEIVED.

Secretary of State Board of Health Makes No Reply.

Health Officer W. T. Graves has not received a reply from Secretary McCormack, of the state board of health, to the letter requesting a visit from him to this city to investigate local conditions. The board of health wanted him to see what could be done to give the local board more authority.

President Brothers and Dr. H. P. Sights made a trip to the city dump yesterday afternoon and decided that it should be left as at present, below the Illinois Central line at the foot of Campbell street. The managers of the dump were looking for a longer cable this morning to use in bringing the flatboat up to the rear end of the Dogwood factory on North Sixth street during the high water. The boat could be loaded there and taken out into the river, but they are afraid to go out into the river without being attached to a cable.

FROM NEW YORK.

Chicago, March 19. — Minus \$2,300 in money and jewels, Joseph Nolan, a New York business man, reported to the police he suspected a handsome young woman, whom he met in a local hotel. Authorities say the woman is under arrest at Albany and will be brought back here.

MOVING PLANTS TO LAWN OF COUNTY COURT HOUSE.

This morning laborers began moving flowers from inside the court house to the open air, preparatory to planting them in the court house yard. The flowers have kept remarkably well throughout the winter, and the county will stand little expense as far as flowers are concerned this year. Judge Lightfoot hopes to make the court house yard even more beautiful than it was last year. In the fountain where over a hundred gold fish live, little loss has been sustained. Only a few died through the winter.

GO TO MEXICO.

President Lindsey Will Take Six Weeks' Trip. H. R. Lindsey, president of the board of councilmen will leave Saturday for Monterey, Mexico, where his firm, the Sutherland Medicine company has a branch plant. Mr. Lindsey will be gone a month or six weeks, and will visit Mexico City and other Mexican points in the interest of his firm. Mrs. Lindsey and their children will accompany Mr. Lindsey as far as San Antonio and will visit there, returning when Mr. Lindsey returns.

THEATRICAL NOTES

AT THE KENTUCKY.
Tonight—Robert Edeson, in "Strongheart."

Wednesday—Professor S. H. Clark.
Thursday (matinee and night)—Miss Florence Davis, in "The Player Maid."

Friday—Richards & Pringle's Minstrels.

Saturday (matinee and night)—Willard Mack and Maude Leone.

Strongheart Tonight.

"Strongheart," a comedy drama by William C. De Mille will be presented here by Robert Edeson and his company under the direction of Henry B. Harris tonight, as the college bred Indian whose name furnishes the title of the play, Mr. Edeson by a characterization of unusualness and power seems certain to increase the large measure of popularity already won by him in "Soldiers of Fortune" and "Ransom's Folly." Mr. De Mille presents the problem of the educated Indian in love with a woman not of his own race. This unconventional story is placed in an equally out-of-the-ordinary setting—Columbia University with youthful college life, its campus heroes and its football game. Mr. Edeson will be supported by a carefully selected company containing many well known players.

"Strongheart" has been the dramatic sensation of the past two seasons and its presentation here should prove one of the genuine dramatic treats of the season.

Miss Florence Davis.

Miss Florence Davis has created a favorable impression in "The Player Maid," and will be seen at The Kentucky Thursday matinee and night. Miss Davis will visit us in response to the many demands for her appearance. The remarkable success which has come to Miss Davis has been justly earned. She began at the lowest rung of the theater ladder and studied diligently while she played her first small parts in various companies under the direction of Charles Frohman and other important New York managers. Through all this untiring effort which in a person of less determined character would have spelled failure, Miss Davis kept her eye on the goal which she has now attained. The large audiences that have attended the performances of "The Player Maid" is the best endorsement for both star and play. "The Player Maid" is in four acts. As the title indicates the story of the play has to do with the theater, always a fascinating subject to the general public.

Minstrels Are Coming.

In order to fully appreciate a minstrel show, one should take a position in the theater where one can get a glimpse of the gallery. They say that laughter is contagious, and to see the "Gallery Gods" as they laugh at the boisterous fun on the stage one cannot help but join in the delight. The Richards & Pringle's Georgia minstrels do not enter to one part of the house alone; their performance is to please the masses, and from reports of the crowded houses this organization is drawing, they seem to catch the public fancy. One thing can be said of Rusco & Holland, is that they have the knack of putting together a minstrel show that has no tiresome wails, or acts—everything goes with a hurry and excitement. They will appear at The Kentucky Friday night.

TAFT TO INSPECT GUTAN DAM

Leaves With Party for Panama Canal on March 24.
Washington, March 19.—Secretary Taft, accompanied by Senator Kittredge and Representatives Burton and De Armond and three civil engineers, is to sail for the Panama Canal zone March 24, on the cruise Columbia. It is expected that the test holes on the site of the Gatun dam will have been excavated sufficiently by the time the party reaches the isthmus to make possible an examination of the foundation of the largest dam to be constructed on the canal.

LA FOLLETTE TO CALL CAUCUS

Senator Has Conference With Lenroot, and Stephenson's Friends.

Madison, Wis., March 19.—Senator La Follette today held a conference with Irvine L. Lenroot and several representatives of Stephenson at his farm home, five miles from Madison. He sought to induce Lenroot to withdraw from the senatorial race and throw his support to Stephenson. It is understood the senator was told if Lenroot should withdraw it was doubtful if enough votes could be secured to elect Stephenson. It was finally decided to call a caucus of the La Follette members Tuesday. If the sentiment against Stephenson is found to be too strong to overcome, it is probable that the La Follette forces will join in support of Lenroot.

Besides La Follette and Lenroot, those at the conference were Speaker Ekern, Attorney Charles H. Crownhart, of Superior, Editor H. P. Myrick and J. H. Pultisher of Milwaukee, Colonel John Hannan, the senator's private secretary, and A. T. Rogers the senator's law partner.

In every department we have on special display new things for Spring. Come down tonight and see. Rudy, Phillips & Co.

HARRIMAN OPTIMISTIC.

Combination of Circumstances Causes Flurry.

New York, March 19.—E. H. Harriman returned to this city today. He expressed the opinion that the financial situation "is going to improve from now on." Continuing he said: "The decline in the stock market was due to a combination of circumstances—a combination of men and circumstances. Some of those men made a lot of money as a result, but I don't think it will do them much good in the end." Harriman laughed at the report that during the recent liquidation of stocks the Union Pacific had disposed of large quantities of its stock holdings. In other words, he said there was no foundation whatever for the story.

Attend the orchestral concert at our store tonight and see our special display of spring millinery. Rudy, Phillips & Co.

TWO CENT FARE.

Bill Advanced in House, Will Be Called in Senate.

Springfield, Ill., March 19.—The house 2 cent fare bill and the senate rate classification measure, which are both on second reading, remain the two most important bills on the calendar of the senate. With the exception of the advancement of the house maximum fare bill, to second reading, railroad legislation in the senate was not touched last week. The members of the upper branch in the meantime have had an opportunity to study both bills, and it is said they will be called up this week.

BEWARE OF IMITATIONS

Cheap Substitutes and
"Just As Good As."

Unscrupulous dealers, mindful only of profit and caring nothing for the health of their patrons, are offering for sale low-grade, impure whiskey, which they tell you is as "good as Duffy's." It is a cheap concoction and fraud, intended to deceive the people. Of course, when a remedy has been before the public so long, has been prescribed and used by the best doctors and in all the prominent hospitals, and has carried the blessing of health into so many thousands of homes as DUFFY'S PURE MALT WHISKEY has, imitations are bound to arise. But they can imitate the bottle and label only—no one can imitate the contents.

DUFFY'S PURE MALT WHISKEY is made from a formula worked out fifty years ago by one of the greatest chemists the world has ever known, and while it has cured millions of people during the last half century, the secret has never been discovered.

Any firm that will sell imitation or substitution goods will sell impure drugs. The firm that is dishonest in one thing would not hesitate to be dishonest in another. Whenever you see imitation and substitution goods offered for sale by a firm, beware of anything and everything put up by that firm. You endanger your own life and the lives of your family and friends by dealing with them.

BEWARE OF FRAUDS!

Duffy's Pure Malt Whiskey

is sold in sealed bottles only—never in bulk. A facsimile of the genuine bottle, full size, is printed here so that you may easily recognize it. It is our own patented bottle—round, amber colored, and with the name "Duffy's Pure Malt Whiskey Company" blown into the glass. The trademark—the Old Chemist's Head—is on the label, and over the cork there is an engraved paper seal. Be certain this seal is not broken.

REFUSE IMITATIONS AND SUBSTITUTES

When you ask for DUFFY'S PURE MALT WHISKEY be sure you get the genuine which is the only absolutely pure malt whiskey containing medicinal, health-giving qualities. Imitations and substitutes, far from relieving the sick, are positively harmful. Demand DUFFY'S, and be sure you get it. Be on your guard against refilled bottles.

Duffy's Pure Malt Whiskey promotes health and longevity, **KEEPS THE OLD YOUNG—THE YOUNG STRONG**

It is the only whiskey recognized by doctors everywhere as a medicine. This is a guarantee.

The genuine is sold by all reliable druggists, grocers and dealers, or direct, \$1 a bottle. Illustrated medical booklet and doctor's advice free. Address Duffy Malt Whiskey Co., Rochester, N. Y.

DUTY AND PLEASURE

Combine for Gratification of Patrons of Lecture.

The coming of Prof. S. H. Clark to Paducah Wednesday evening, March 20, at the Kentucky, is not only an occasion for all lovers of good literature to enjoy a rare treat, but it is also an opportunity for the citizens of Paducah to tend a helping hand to those women who are laboring so earnestly to establish a Woman's club. Not a club for social entertainment, but a club to work in every way that it can for the advancement and improvement of the city. The old Grief place on Kentucky avenue has been purchased for a club house and plans for its remodeling have been made by Architect W. L. Brainerd. The members are working hard to raise the necessary funds for these improvements.

NEW CLAY MINE

WILL BE OPENED NEAR CLAY SWITCH ON I. C.

Several Hundred Acres of Valuable Property Taken Over By Big Company.

Mayfield, Ky., March 19.—The Cooley Ball & Sagger Clay company is the name of a new mining company that is being organized for the purpose of developing other lands at Clay Switch, where the famous "clay" is said to exist in immense quantities. Mrs. Mattie Cooley and J. N. Cooley own several hundred acres of land just west of the land owned by the Kentucky Construction and Improvement company, and W. N. Jeffrey who was formerly a stockholder in the other company, has purchased a half interest in the Cooley land. An entirely new stock company is to be formed and it is rumored that outside capitalists will invest and be associated with them in this new concern. This land lies along

the Illinois Central railroad and is said to be valuable property. The object is to soon have in operation one of the largest clay mines in this section of the country.

J. N. Cooley, who for a number of years was manager of the old mines, is an experienced man in the business, and the company will be under his management. Mr. Jeffrey has gained considerable information and will be a valuable man. The Jeffrey Construction company will soon begin the work of excavating the mines and getting everything ready for operation as soon as possible.

Many a fellow is contented because he is too lazy to make a kick.

JOHN D'S WILL IS TALKED OVER

Will Startle the World With His Benefactions

Partly Educational and Partly Charitable Will Be His Gifts to City.

NEW YORK TO BE THE CENTER.

New York, March 19.—The Herald will tomorrow say that, according to a member of John D. Rockefeller, Jr.'s Bible class, who is also a personal friend of John D. Rockefeller, and in a position to know of his affairs, the latter proposes soon to make a princely gift to New York City. It will amount to at least \$50,000,000. It will be partly charitable and partly educational.

The Herald will add: "This man said that when M. Rockefeller was conferring with his son at Lakewood, N. J., a fortnight ago, the meeting was not for the purpose of discussing any immediate gift, but was on the subject of Mr. Rockefeller's will, which document the oil king was then completing with the aid of his son and his lawyers.

"It was said that this document will astonish the world when it is made public. It will, it is declared, donate not less than \$250,000,000 for charitable and educational purposes, and it will be so bestowed that the benefit therefrom will almost be perpetual.

Smallest Part to Religion.
"The manner in which these bequests will be bestowed is said to be mainly educational and charitable. While there are some contributions for religious purposes, it is stated that Mr. Rockefeller does not think

it necessary to extend any great financial aid to churches. To his manner of thinking, the churches are growing stronger and stronger, and there is no danger that they will ever need any great financial assistance from any one man.

"Mr. Rockefeller, however, is said to be much in favor of the growth of education, and to the furtherance of this end he has done much in his will. He believes that education will make this country the greatest in the world, and that every cent contributed toward that object will help to make better citizens and better Christians.

Model Tenements in Mind.
"As to the charitable bequests, it was said some time ago that Mr. Rockefeller had in mind building model tenements for the poor, such as have been erected in some European cities.

"In his will, the Herald's informant states, Mr. Rockefeller has provided these three things: Bequests for religious purposes, though not of large sums; liberal bequests for education, and what are described as princely bequests for charitable purposes. It is said there is scarcely a man, woman or child that will not benefit in some way by these prospective donations."

PRINT OF TWO FINGERS ON SAFE UNCOVER JEWEL THIEF.

San Francisco, March 19.—The finger prints of a man who had only two fingers on his left hand led to the detection of a burglar who last night robbed the jewelry store of W. B. Greenbaum in Oakland of watches and rings worth \$2,000. In the dust on the border of the safe combination were marks of the ring and little finger of a man's hand. It was evident that the combination had been worked by some one with only two fingers. Greenbaum remembered that he had discharged a clerk, Lawrence Dressbach, a month before who had only two fingers on the left hand. Dressbach's trunk was searched and the stolen property found.

May Be Murder.

Bardwell, Ky., March 19.—John Center, a highly respected citizen of Bardwell, was found a charred corpse in a fire which destroyed his home about 10 o'clock that night but there is grave doubt that the man was burned to death and it is feared that he was murdered and that the assassin set fire to the house to hide the traces of his terrible crime.

Sunday evening Center's wife and children went to church as was their custom leaving Mr. Center at home. On their return to their home on the outskirts of the town they found the house in ashes and while almost crazed with fright over what they feared was the fate of the husband and father, rushed to alarm their neighbors. In searching through the ruins the charred body of Mr. Center was found, the arms, legs and top of the head burned off.

Among other things of passing importance are free tickets.

Made Ill By Bad Milk.

Louisville, March 19.—Sixteen residents of a section of the west end were made seriously ill by what is thought to have been ptomaine poisoning caused by drinking impure milk. Of the victims one is expected to die, and all were made violently ill though prompt medical attention pulled them out of danger. The milk which is suspected of having been the cause is being analyzed by City Chemist Vernon Robins. He says it contains a great deal of bacteria, though he has not completed his examination.

UNDEVELOPED RESOURCES.

While Paducah is straining every effort to induce industries to come to this city, clay from the scarcely scratched deposits on the Illinois Central and Nashville, Chattanooga & St. Louis railroads, within a radius of 100 miles of this city, is being shipped to the pottery and brick centers in southeastern Ohio. Instead of wasting more or less energy in a hit and miss campaign to attract a heterogeneous collection of industries, why not concentrate effort to build up the ceramic industries, and make Paducah a center for the southern and southwestern trade. We have the clay—all kinds of it, and it certainly should be cheaper to ship the material only 50 or 75 miles to Paducah than to ship it 500 miles to Ohio to be manufactured, and then ship it back 1,000 miles to be sold. We have the river freight rates here, just as they have at Steubenville, Ohio. All we lack is an appreciation of the value of our unrealized assets. There is near Grand River and other nearby points the best fire brick clay in the world. Along the lines of both railroads there is the finest kind of material for, not only crockery, but for the costly art ware, most of which is lying idle. The supply, according to the government reports, is almost inexhaustible. Here we have deposits of raw material in easy access by railroad; the facilities for manufacturing it, with a territory that would be exclusive, and four navigable rivers penetrating the territory in four different directions. While we are crying for new industries and fighting to get factories away from other cities, why are we shipping out our raw material to be made into useful form and sold back to us at ten times the original cost?

A Wall street panic; a diminution of a billion dollars in stock values on the street in 24 hours and not a failure recorded! Business seems to be going on just as it did before. The railroads, whose stock depre-

clated, are worth just as much as they were before. The cost of building them, of course, was unaffected by any access of value to their stock. The cost of operation was not moved when the market fluctuated. People kept right on shipping things, just as they did before. Somehow our faith in Wall street as the heart of America is shaken. We begin to suspect that Wall street is our vermin appendix. We also suspect that the Wall street brokers lie awake nights figuring whether the outside crowd is composed of bears or bulls, and then go the other way. At any rate, we know that whether the market goes up or goes down, the outsiders always lose, and the men on the inside always win. New York is the home of the gold brick and the green goods man. She has produced some great bunco artists in her history, but the present day Wall street "high financier" is the perfection of the type.

Every other municipal issue is obscured by the overwhelming presence of the question, shall or shall not the little boys and girls continue the heinous practice of skating—actually skating—on the hallowed sidewalks of Paducah, causing pedestrians to perform some of the most undignified antics in evading the skaters, who evince none of the respect and consideration for their elders, which was the most marked characteristic of the generation, that now is doing the scampering to avoid collisions. My, my! where there ever such children? When we were boys—but, there, what's the use? We didn't have any nice smooth concrete sidewalks, and our elders had to pick their way through the mud anyway.

"The president has more confidence in himself than in God Almighty," declared a Washington preacher, who adds that the president does everything "with the power of his lungs." We observe the Washington divine has discovered that he can get more notoriety out of talking about Roosevelt than about the creator.

Physicians say that roller skating on the sidewalks is a healthy, innocent exercise for children, especially when indulged in the open air. Mothers favor the pastime, because it keeps the boys and girls out of mischief. The rest of us enjoy it because the children do.

Certainly, the man who invests in railroad improvement projects should be protected from the menace of the demagogue and the fanatic; and he should also be protected from the machinations of stock jobbers.

We are assured that the benefactions named in Rockefeller's will are to startle the world, and that everybody is to receive a substantial benefit. So, the more Standard oil we buy the more we are adding to our share in the estate.

It required formal, official denial to satisfy the public mind that the meeting between Taft and Deneen at the white house was purely accidental; but, then, other presidential candidates are naturally nervous.

When Jerome said "the people rest", he wasn't referring to those who have been following the trial of Thaw.

Are the sidewalks more to be considered than the children?

DEATHS OF A DAY

Henry Temple, Sr.

Henry Temple, Sr., 63 years old, one of the wealthiest and most prominent residents of McCracken county, died this morning at 10 o'clock of grip at his home at Maxon Mills, eight miles from Paducah on the Cairo road. He had been ill ten days and was supposed to be on the road to recovery until this morning when he suddenly took a turn for the worse. He was a native born German and came to this country when young. He lived in Missouri for years and fourteen years ago moved to Maxon Mills and purchased the Maxon interest in the big mills. He was an expert miller, and made money out of his business. At his death he was senior member of the firm of Temple Bros. & company. He leaves a wife, and the following children: Henry Temple, Jr., Mrs. Adam Temple, Mrs. Lena Temple, of Maxon Mills, and Mrs. Eva Holland, of Graham.

Fish Now an Executive.

New York, March 19.—Stuyvesant Fish, former president of the Illinois Central and recently elected a director of the Missouri Pacific, was today elected a member of the executive committee of that company at a meeting of the board of directors. All officers of the company were re-elected at the same meeting.

John Sherwin's Funeral.

The funeral of John James Flournoy Sherwin took place this afternoon at 2:30 o'clock at the Grace Episcopal church. The services were conducted by the Rev. David C. Wright. Many personal and family friends of the popular young man were present to pay the last respects. The floral tributes were many and beautiful. The honorary pall bearers were all from the Friedman-Keller firm: Messrs. Joseph L. Friedman, John W. Keller, A. R. Meyers, Lawrence Dallam, Harry McElwee and Charles Adams. The active pall bearers were from his young men friends: Messrs. Roy Chiley, Harris-Rankin, Eddie Clark, Anthony Long, Herbert Hawkins, Evert Thompson. The burial was at Oak Grove cemetery.

Department Interested.

Washington, March 19.—An inspector sent out by the navy department is now investigating as to whether it will be safe to bring the gunboat Wasp up the Ohio river, stopping at Kentucky ports. His decision is expected this afternoon.

RUSSIAN WRECK.

Harbin, Russia, March 19.—Seventeen persons were killed and 30 injured in a wreck on the Trans-Siberian railroad near here today.

Notice.

I have opened a harness shop on the second floor of the Paducah Saddlery company's old stand, corner of Second and Kentucky avenue and would be pleased to have all my friends call and see me.

CUTS OFF EAR OF PRINCE; SHOT

Russian Captain Wounded Dangerously By Noble He Attacked.

St. Petersburg, March 19.—A shooting affray took place today in the dining hall of the Grand Hotel de Europe between Prince Nikaridze, a marshal of the nobility from Kurland, and Captain Kosloff of the East Siberia sharpshooters. In the midst of a spirited argument concerning the autonomy of the Caucasus, Prince Nikaridze made a disparaging remark about Russian military prestige.

Thereupon Captain Kosloff drew his saber and cut off the prince's ear. The prince fired twice, his revolver bullets penetrating the neck and breast of the captain.

A surgeon sewed on the prince's severed ear. Captain Kosloff's wounds are dangerous.

Are Causes of Panic and Not Stock Market Flurries.

New York, March 19.—The South Carolinians of New York gave their first annual dinner tonight, with former Secretary of the Treasury Shaw, President Woodrow Wilson, of Princeton, and Judge Joseph A. McCullough, of South Carolina, as the principal speakers.

"Shaw, in responding to the toast 'The United States,' took occasion to refer to the railroad situation, saying among other things:

"There have recently been given out a number of pessimistic interviews, and on Thursday last there occurred a serious local panic, the result of psychological and not logical causes. Not until apprehension of danger resulting from repeated predictions of evil leads to less acreage planted, less raw material purchased for factories, less labor employed, and curtailment in consumption generally, will we suffer commercial collapses. Let it be understood that he who invests his money in railroad

March is a Trying Month.

"Nor love, nor honor, wealth nor power,
Can give the heart a cheerful hour.
When health is lost. Be timely wise,
With health all taste of pleasure flies."

March is conceded by local physicians to be the worst month in the year in Paducah, in the point of the extent of sickness. The quick changes in the temperature, warm one day, chilly, with penetrating winds the next affect the physical condition probably more than any season of the year.

The only safeguard therefore is to get yourself in good condition. The liver, the blood, the kidneys, the skin should be in first class order or you can not stand the trying month. Osteopathy, quickly naturally restores any disarrangement to any of these essentials of good health. The torpid liver, the disordered kidneys, the poor blood supply or circulation readily yield to its health giving methods.

The treatment is simplicity itself, sane, rational, without the use of harmful drugs. It cures by scientific manipulation to restore the normal functions to each organ. It recognizes, appreciates and uses proper diet, air, water, exercise and other natural hygienic measures, too.

A trite saying is "Seeing is believing," so I shall be pleased to refer you, if you are interested, to any number of people you know well who can attest to the virtues of the treatment in liver, stomach, bowels, rheumatic, asthma, malaria, neuralgia and nervous condition.

Call me at 1407 or call at my office, 516 Broadway, at any time between 9 and 12 a. m. or 2 and 5 p. m. Dr. G. B. Froage.

shall be as safe and as secure from the reckless ambition of the manipulator on the one hand and from the reckless ambition of the demagogues on the other, as the man who elects to invest in farm lands, town lots, mines, factories or forests."

Caught in Collapse.

Cincinnati, March 19.—A three-story brick building at the corner of Front and Plum streets which has been surrounded by the Ohio river flood for several days past collapsed last night. The building was occupied by several Italian families. A middle aged woman and her three-year-old child were instantly killed.

Announcement

It is a Pleasure to Announce that We Have
Secured Exclusive Control of the Celebrated

Knapp-Felt
De Luxe Derby
\$6.00

We regard this agency as a distinct triumph for the House of Welle, for the De Luxe is the choice of fashionable men the world over. While this is the highest priced derby any Paducah store has attempted, we believe the quality amply justifies the price. Only the finest Argentine nutria is used in its make-up and the trimmings and leathers are in full accord with this standard of quality; most emphatically, the De Luxe is a good six dollars' worth.

Our Paducah friends have shown that they are in hearty sympathy with our policy of "Nothing too good for Paducah," and we feel confident of their support in this new step into the realms of "highest quality." It will be a pleasure for our hat man to show you.

Louisville Appreciation of Prof. Clark.
The Courier-Journal, Louisville, says:

"Prof. S. H. Clark, who enjoys a national reputation, and who has the position as head of the department of public speaking in the University of Chicago, will deliver a lecture next Thursday night in the assembly hall of the Temple Adath Israel, on the subject of Stephen Phillips Ulysses. Prof. Clark has spoken in Louisville before large and enthusiastic audiences, and has a great number of personal friends in Louisville."

Wife of Former First District Congressman.
Mrs. Oscar Turner's friends in Paducah will be interested in the following from the Courier-Journal Washington note:

"Mrs. Oscar Turner's return to Louisville, after so brief a sojourn at the New Willard, has been a great regret to her host of Washington friends, with whom she usually spends the greater part of her winters. While not strong enough after her serious illness to go a great deal into society while here, Mrs. Turner was the guest of honor at a number of dinners at the home of the Hon. John G. Carlisle and several other old friends."

Tribute to the Roosevelts.
There is a general rejoicing over Archie's recovery. He is a jolly, unspoiled little soul, whom everybody likes, with a frank word for all with whom he comes in contact. In fact, there isn't a Roosevelt with an air, from papa to Quentin, Archie is particularly chums with his big half sister, Mrs. Longworth, whom he was strenuously insisting into the mysteries of expert coasting earlier in the winter, masculinely scornful of her reserves and timidity. "Pshaw! Girls aren't any count. They don't let themselves go!" he exclaimed in disgust, when overtures at instruction in "belly-boasting" and other intricacies of the wonderful toboggan are, not femininely feasible were rejected by his senior. Mrs. Longworth is an enthusiast at sports. She has been enjoying the sleighing during the most sleighful of winters. She has been doing a good deal of riding of late, and performing some rather clever equestrian stunts, being as fearless as her father on a horse.—Washington (D. C.) letter to Courier-Journal.

In Bankruptcy.
O. C. Lasher, trustee of J. D. Foley, bankrupt, of Lola, Livingston county, has filed a petition, asking Referee E. W. Bagby for an order of sale for Foley's stock of drugs appraised at \$3,430. The case will be tried March 29.

An appraisal of the property of J. H. Nelson & Son, of Livingston county, has been returned in this district bankruptcy court showing on the face that the firm will probably pay out, exemptions amounting to several hundred dollars were claimed, and the next step will be the filing of a petition for a sale of property. The assets follow: J. H. Nelson & Son, \$2,595.61; J. H. Nelson, individually, \$2,455; E. M. Nelson, \$110.

F. G. Rudolph, trustee of the W. D. Melton, bankrupt estate of Bandana, and W. V. Eaton, attorney for the creditors, went down to Bandana this morning to have the estate appraised.

A. E. Boyd, trustee of the estate of E. Rehkopf, bankrupt, has taken out a distress warrant in Magistrate Bleich's court against Earl Walters for rent of two store buildings on South Second street, between Broadway and Kentucky avenue. He sues for \$450 back rent. Walters has occupied the buildings since December 4. The suit is too large to be handled in Magistrate Bleich's court and will be referred to the circuit court. An offer to settle the claim for \$226 was made this morning and refused by Trustee Boyd.

IN THE COURTS

In Magistrate's Court.

C. E. Gridley and C. C. Grassham yesterday entered suit in Magistrate C. W. Emery's court to foreclose a mortgage for \$75 held on furniture in Frank Just's barber shop on North Fourth street. Just has left the city.

The effects of H. A. Cunningham, the insurance agent who left Paducah owing several hundred dollars, were ordered sold to satisfy creditors by Justice C. W. Emery yesterday.

John D. Smith, W. H. Gardner and B. F. Sears, appraisers, yesterday filed a report fixing the value of property belonging to Mantz L. Hays, of the hotel at Eleventh and Broadway, at \$266.25. It will be sold by order of court to satisfy a claim of \$200 rent. Constable A. C. Shelton will conduct the sale March 29.

In Police Court.

Circuit Judge William Reed honored the police court with a visit this morning, sitting inside the rail, and his interest in the cases was keen. In the trial of Ida Scott, a negro, for breaking into Freddie Yopp's house developed that the Scott woman had been keeping house for Yopp until a short time ago when she left. Yopp got another housekeeper and the Scott woman seemed to be jealous.

Three drug firms were presented for selling liquor on the Sabbath, and all were dismissed by Judge Cross, although they were vigorously prosecuted by City Attorney Harrison.

Other cases: Mike Wade, colored, using insulting language, continued; Will Lucas, disorderly conduct, continued; Floyd Harris, colored, breach of peace, dismissed; George Brown, colored, breach of peace, continued.

In Circuit Court.

In circuit court the following suits were today filed:

Dr. J. T. Reddick against Moore Whitaker, for \$175 for professional services.

Hummel Brothers against J. S. Caldwell, for \$133.07 alleged to be due on a note.

Lena Lockland against Roy Lockland, for divorce on grounds of abandonment. They married April 6, 1903, and separated in January, 1903. She asks that she be given the custody of their child, Gertrude Lockland.

John Jack against Virginia Jack, for divorce on grounds of abandonment. They married in 1902 and separated in 1905.

W. H. Morris.

W. H. Morris, 75 years old, a prominent resident of Melber, died of general debility last night after a lingering illness. He was a member of the Missionary Baptist church and leaves a wife, three sons and three daughters. The funeral will take place tomorrow afternoon at 1

Black and White Cigar—5c

If you are skeptical about this, just try a BLACK-AND-WHITE. You'll immediately recognize in its smooth, mellow blend, a quality you never before got in a cigar for 5c. The grade of leaf used in BLACK-AND-WHITE is the same as has been for years put into 8-for-25c and 10c straight brands.

Only the producer-to-smoker, cost-reducing plan of National Cigar Stands gives you BLACK-AND-WHITE for 5c.

The best cigars are now sold in the 2,000 Drug Stores having the National Cigar Stands Emblem in the window.

UP TO ASSEMBLY

TO DETERMINE WHETHER OR NOT JACKSON WENT DRY.

Anti-Saloon Leaguers Declare Duplications Will Reduce Real Registration.

Jackson, Tenn., March 19.—It is now quite certain that the general assembly will have two sets of registration figures to consider when it takes up the bill looking to the repeal of the charter of the city of Jackson. One set will be presented by the Anti-Saloon League and the other will be presented by the opponents of the measure.

Members of the league have gone over the registration books and marked off a large number of names which, it is claimed, had no right to be there, because of removals, duplication, deaths, etc. They claim that the maximum number entitled to vote in the election of last Thursday was 1756. The books show 2304 registrations of white voters, but under the inspection of the league investigators 548 of these have, for the reasons already named, being marked off.

The election commissioners are all so going over the books with a view to finding how many names are duplicated, the number of deaths and removals and so forth, and while their report is not yet ready for publication they have progressed far enough to make it certain that their figures and those of the league folks will not agree.

About two hundred names have been eliminated by the commissioners and as their work is almost completed, it is expected that their report will show something over two thousand white voters.

It is now thought that the bill to repeal the charter will be introduced tomorrow. Several temperance advocates are going up to Nashville this evening and others will follow tomorrow.

TAFT IS CHOICE OF ROOSEVELT

General Belief in Washington Is Growing

Ohio Man Selected To Carry Out Plans of Administration During Next Term.

PRESIDENT FEARS REACTION

Washington, D. C., March 19.—Local observers say it is daily becoming more manifest that President Roosevelt is tightening his grip on the reins of his party with a view to making Secretary Taft the nominee of the next Republican national convention for president, and whatever encouragement, by his silence or otherwise, he may be giving those who are showering upon him compliments in this connection it is believed in inner political circles, to be nothing more nor less than a secret part of the program to get matters so firmly gripped as to enable Mr. Roosevelt to dictate the nomination of Mr. Taft.

Undoubtedly, from the president's view point, the next presidential contest and the railroad situation are identical and for this reason alone he desires to put himself in position to name the Republican candidate for president. Mr. Roosevelt feels that if the reforms for which he is battling with all the might and power of his official position, amount to anything in the future he must see to it that a man succeeds him in the white house who will uphold and continue the work which has brought him so much in the way of glory and renown. Otherwise he will have labored in vain.

What is of the keenest concern to the president is that no reactionist, such as Senator Foraker or Fairbanks gets at the head of the nation. Hence his solicitude for Secretary Taft in whom the president sees a man after his own heart.

William Howard Taft is the president's choice, first, last and all the time, and whatever he can do to advance the interests of his friend in the cabinet he will do earnestly and adroitly, as he does everything else upon which he centers his affections and energies.

Undoubtedly the president is looking to the most available man connected with the administration. Popular opinion points to Taft. Elmer Root is wise and patriotic, but devoid of those elements that win votes. Taft is all that Root is, and possesses of a winning personality besides. As United States judge, as governor of the Philippines, as secretary of war, he has never failed to

SHORT TALKS BY L. T. COOPER.

THE STOMACH
My bit peoples' stomachs do cause a lot of trouble. I offered to wage some doctor in St. Paul, Minn., that 1-2 of all sickness is caused by the stomach.

After I assured them that my medicine did nothing but put the stomach in shape and they had spent a day listening to what the Alton Eagle is ready to go to people who St. Louis it will have to be towed over there as the boilers have not come in and tell me that for years been put in. They will be installed when the Alton Eagle reaches St. Louis.

The Birmingham came up from Joppla today after taking a tow of ties down.

The Scotia will arrive from the Tennessee river today with ties.

Official Forecasts.
The Ohio, at Evansville and Mt. Vernon, will continue rising at decreasing rate during the next 24 to 36 hours, exceeding the 44 foot stage at Evansville by Thursday morning, and at Mt. Vernon by Thursday night. At Paducah and Cairo, will continue rising at decreasing rate during the next several days, reaching flood stages during Thursday.

The Tennessee, from Florence to below Johnsonville, will continue falling during the next 24 hours.

The Mississippi, from below St. Louis to slightly above Cairo, will continue falling during the next 24 hours.

Salvador Joins Honduras.
Panama, March 19.—According to reliable information received here from Salvador that country allied itself openly with Honduras in the war with Nicaragua on March 10, when 2,500 Salvadoran soldiers landed at Amapala and proceeded the next morning in the direction of Choluteca.

meet the requirements. The president has not spared Taft, but has put him to the test on all occasions. The president desires a man courageous enough to continue the work of reform. Taft displayed his nerve, when he went home to Cincinnati and denounced the Cox gang. All these things will strengthen him when the campaign warms up and his record becomes an issue. In his home state, he will be strong. The opposition of the senators will be offset, and probably stifled by the national executive power. Taft's brother owns the only big paper in the southern part of the state. The Republican papers in every city will support him.

Paducah	38.7	1.2	rise

High water may come and high water may go, but business on the river goes on in goodly proportions just the same. The packets find handlings just a little difficult, but the most unpleasant part will come after the water goes down. The stage this morning with a rise of 1.2 was 38.5. The stage March 19 last year was 21.4.

The Hesmer was put into the river off the ways yesterday after receiving a few new planks and caulking. The Clyde is closed in and is being caulked.

After an all-winter lay-off, the Savannah left St. Louis yesterday afternoon for the Tennessee river and will arrive here Wednesday morning.

The City of Saltillo arrived from the Tennessee river this morning at 7:30 o'clock with a fair trip, principally peanuts. After taking on a good consignment of freight here, the Saltillo left for St. Louis.

The Butterfield should arrive tonight or in the morning from Nashville and leave Wednesday at noon for the same point, skipping the Clarksville trip.

The towboat, I. N. Hook arrived from the Cumberland river today with five barges of ties.

Getting in on time has become a habit with the Joe Fowler in the last week. Business was fair and the Joe Fowler left at 11 o'clock for Evansville.

Captain Mark Cole went into the pilot house this morning on the Dick Fowler to take the wheel today for Les Broadfoot, who is sick. Captain Edwards is filling Captain Cole's place as captain of the Dick Fowler. Roy Broadfoot, who went off the Dick Fowler to the John Hopkins to take the wheel while John Westhe is sick, probably will get back on the Dick Fowler Thursday or Friday.

The City of Memphis arrived this morning from the Tennessee river with a good trip and will leave Wednesday evening on the return trip.

The Chattanooga left this afternoon for Chattanooga on schedule time.

The Fannie Wallace is coaling the Spread Eagle today and that packet will leave April 1 for St. Louis. When they leave the Alton Eagle is ready to go to people who St. Louis it will have to be towed over there as the boilers have not come in and tell me that for years been put in. Why Vinol Is Better Than Any Other Remedy to Restore

Health and Strength

Vinol

WE RETURN MONEY IF IT FAILS TO GIVE SATISFACTION

W. B. McPHERSON, Druggist.

Because Vinol is a real Cod Liver Preparation and does not contain a single disagreeable or harmful ingredient and is not a secret formula.

Because Vinol contains all the medicinal elements—the soothing, healing, strengthening and flesh creative properties of Cod Liver Oil—but without oil or grease.

Because everything in Vinol,—except the tonic iron and a fine old wine,—is actually extracted from fresh cods' livers and their oil.

Because Vinol is deliciously palatable and agreeable under all conditions. Everybody likes it.

Because Vinol tones up the system, strengthens every organ, nerve, muscle and fibre of the whole body and thus overcomes weakness by thoroughly eradicating the cause of disease.

That's Why Vinol is altogether different and better than any other remedy for Coughs, Colds, Bronchitis, and all Throat, Lung and Wasting Diseases.

That's Why Vinol Restores Health and Strength to Delicate Children, Feeble Old People, Weak and Sickly Persons, Nursing Mothers, and Convalescents.

Wanted in England and Two Women On Ship Got Into Trouble With Them.

New York, March 19.—Arthur Preston Green and Charles Dumont Rohrer, who went abroad two months ago on a cattle ship, arrived home from Europe today on the liner Amerika and went direct to police station cells after treasury department agents had removed from their persons jewels estimated at from \$20,000 to \$30,000 in value.

This jewelry is part of the proceeds of an enormous haul made by a band of American criminals in London last month. The stuff was stolen from the London house of Tiffany & Co. and from another large jewelry house in Bond street. Green and Rohrer are locked up at police headquarters on a technical charge of smuggling, but it is likely that the pair will return to England in order to make a close study of conditions at Wormwood Scrubs or some other British penal institution.

From an ordinary cheap clothing store crook to the principal in one of the biggest jewel robberies of a century is a long step, but Arthur Preston Green was ambitious and took it. He is an alumnus of Blackwell's island, while Rohrer is a graduate of

Skin Diseases

Practically all skin diseases are due to uric acid crystals from the blood lodging in the tiny capillary blood-vessels, cutting their way into the skin tissue, and constantly irritating the nerves. All skin disease is evidence of an excess of uric acid in the blood.

Uric acid is a part of your body's waste matter, which your blood should dissolve and throw out. But if the "filters" of your body—the bowels, kidneys and liver—become clogged, or too much waste is produced by over-feeding, the uric acid accumulates and forms tiny, cutting crystals like sand. There is no likelier place for these to lodge than in the hair-like veins of your skin. Where uric acid sand once lodges, it collects more and more, and in time must certainly cause one of those frightful afflictions—eczema, tetter, psoriasis, acne, salt rheum, pimples and boils.

There is only one way of curing skin disease! Remove the uric acid. Your skin trouble then disappears. Salves and ointments are useless because they cannot reach the uric acid deposits. LIFE PLANT will reach the blood and dissolve the uric acid crystals, and the kidneys will filter all impurities, thus restoring a healthy and vigorous skin. Take LIFE PLANT at once. Read this:

"I have been troubled with eczema and rheumatism for about two years. The doctor's medicine did me no good, and other remedies I tried failed also. I got a bottle of Life Plant and haven't used it all yet, and it has done me more good than anything else. I will recommend your wonderful medicine to other friends."

"Well?" In the intense suspense of the moment the word escaped Loder.
"Oh, I went out of the room, but before I could call anybody, I knocked up against that idiot Greening. He was looking for me—for you, rather—about some beastly work affair. I tried to explain that I wasn't in a state for business. I tried to shake him off, but he was worse than Bessington! At last, to be rid of the fellow, I went with him to the study."

"But the telegram?" Loder began. Then again he checked himself. "Yes—yes—I understand," he added quietly. "I'm getting to the telegram! I wish you wouldn't jar me with sudden questions. I wasn't in the study more than a minute more than five or six minutes." His voice became confused, the strain of the connected recital was telling upon him. With nervous haste he made a rush for the end of his story. "I wasn't more than seven or eight

"Loder, what are you going to do?" minutes in the study; then, as I came downstairs, Crapam met me in the hall. He told me that Lillian Astrop had called and wished to see me and that he had shown her into the morning room."

"The morning room?" Loder suddenly stepped back from the table. "The morning room? With your telegram ying on the bureau?"

His sudden speech and movement startled Chilcote. The blood rushed to his face, then died out, leaving it ashen. "Don't do that, Loder!" he cried. "I—I can't bear it!"

With an immense effort Loder controlled himself. "Sorry," he said. "Go on!"

"But the telegram! The telegram!" Chilcote paid no heed to the interruption. He was following his own train of ideas. "I knew she had come to see you. I knew there was going to be a scene. When I got to the morning room my hand was shaking so that I could scarcely turn the handle; then, as the door opened, I could have cried out with relief. Eve was there as well!"

"Eve?"
"Yes. I don't think I was ever so glad to see her in my life. He laughed almost hysterically. 'I was quite civil to her, and she was—quite sweet to me.'—Again he laughed. Loder's lips tightened.

"You see, it saved the situation. Even if Lillian wanted to be hasty, she couldn't while Eve was there. We talked for about ten minutes. We were quite an amiable trio. Then Lillian told me why she'd called. She wanted me to make a fourth in a theater party at the Arcadian tonight, and I—I was so pleased and so relieved that I said yes!" He paused and laughed again unsteadily.

In his tense anxiety Loder ground his heel into the floor. "Go on!" he said fiercely. "Go on!"

"Don't!" Chilcote exclaimed. "I'm going on—I'm going on." He passed his handkerchief across his lips. "We talked for ten minutes or so, and then Lillian left. I went with her to the hall-door, but Crapam was there too—so I was still safe. She laughed and chattered and seemed in high spirits as we crossed the hall, and she was still smiling as she waved to me from her motor. But then, Loder—then, as I stood in the hall, it all came to me suddenly. I remembered that Lillian must have been alone in the morning room before Eve found her! I remembered the room, meaning to question Eve as to how long Lillian had been alone, but she had left the room. I ran to the bureau—but the telegram wasn't there!"

"Gone?"
"Yes, gone. That's why I've come straight here."

moving of boxes came from the bedroom.

Chilcote, shaken and nervous, stood for a minute where his companion had left him. At last, impelled by curiosity, he too crossed the narrow passage and entered the second room.

The full light streamed in through the open window; the keen spring air blew freshly across the bonnets, and on the window sill a band of grimy, joyous sparrows twittered and preened themselves. In the middle of the room stood Loder. His coat was off, and around him on chairs and floor lay an array of waistcoats, gloves and ties.

For a space Chilcote stood in the doorway staring at him, then his lips parted and he took a step forward. "Loder," he said anxiously, "Loder, what are you going to do?"

Loder turned. His shoulders were stiff, his face alight with energy. "I'm going back," he said, "to unravel the tangle you have made."

BIG GRIFT.

False Grand Jury Said To Uncover It.
San Francisco, March 19.—The action of the grand jury in bringing before it today the members of the board of supervisors aroused the greatest interest in the proceedings of that body. When it was announced that the grand jury would probably remain in session all night it was conceded that extraordinary results may be looked for. The Bulletin published an "extra" declaring that a plot involving the granting of valuable street railway privileges was laid here. It is charged that \$450,000 was paid to high officials to permit the conversion of the street railway systems into electric lines and the bulk of this money was retained by a mysterious man, and that small sums were parceled out to permit the granting of the required franchises.

Church Thief.
Chicago, Illinois, March 19.—Calls for help from the vestry disturbed the sermon of the Rev. Charles R. Brown, of the First Congregational church of Oakland this morning. The preacher and his congregation rushed in and found the sexton struggling with a husky burglar, who was surprised packing up the chalices and other silverware. The thief probably would have won the fight had not the sexton sounded the alarm.

After the burglar had been sent to jail the preacher resumed his sermon. Dr. Brown is the preacher who delivered a course of lectures at Yale last year.

The oldest secret trade process now in existence are said to be the manufacture of Chinese red, or vermilion, and the method of infusing the hardest steel with gold and silver. They were both known to the Romans.

ROLLER SKATING LAW IN HOSPITAL

Too Broad and Councilmen are Dubious About It

Citizens Protest Against Proscription of Healthy, Innocent Exercise.

OTHER BUSINESS OF BOARD.

The roller skating ordinance furnished substance for a heated debate in the council chamber last night in which Mayor D. A. Yelzer, for the ordinance, and Gus G. Singleton, a citizen, resorted to personal matters. The "fur flew" for a short time, but the matter was closed by an apologetic explanation on both sides. Other business was routine, and the meeting lasted until 10 o'clock.

Councilmen Herzog and Flournoy were absent.

A contract for widening the roadway with property owners on Broadway from the railroad hospital to Twenty-fifth street was referred to the boards as a committee of the whole to meet this week. The property owners agreed to pay 75 cents the lineal foot for sidewalks, the city to pay the rest; and the city to get a clear deed to the property.

The matter of raising the city engineer's salary from \$1,800 to \$2,100 per annum was referred. The original motion read \$2,000, but Mayor Yelzer suggested the salary engineer Washington received when he came to Paducah.

Sidewalks on Broadway between Fourth and Fifth streets were ordered repaired.

Dynamic in Helicon Hall.
New York, March 18.—Dynamite has been found in the ruins of Helicon hall, Upton Sinclair's co-operative colony house, near Englewood, N. J., which was destroyed by fire early yesterday morning, when one life was lost and 56 others were imperiled. It has also been established by those who are investigating the fire that at least one inmate of the hall was awake and fully dressed in the building a few minutes before the fire started, which was about 4 o'clock.

Most persons who are afflicted with Contagious Blood Poison hesitate to go to a physician for several reasons. In the first place the expense is heavy, and they know that the inevitable treatment will be mercury and potash, strong minerals that act with disastrous effects on the delicate parts of the system, and which do not, after all, really cure the disease. What they want is a safe, reliable treatment that can be taken at home and a perfect cure made of this loathsome disorder without unnecessary exposure or expense. Such a remedy is S. S. S.—it is the only medicine that goes down to the very bottom of the trouble and drives out the last trace of the poison so that there are never any signs of its return. It does not contain a particle of mineral in any form, and after removing the disease from the circulation builds up every part of the system by its fine vegetable tonic properties.

S. S. S. attacks the trouble at its head and not only permanently cures the disease for the one afflicted, but so purifies the blood that future offspring is insured against infection. S. S. S. may be taken in the privacy of your home and a perfect cure made of this hateful and loathsome trouble. For the assistance of those who are curing themselves with S. S. S. we have prepared a special book on Contagious Blood Poison which contains instructions of great value to all blood poison sufferers. We will be glad to send a copy of this book free, and if additional instructions or advice is wanted, our physicians will furnish it without charge.

OPENING EXHIBIT of SPRING FASHIONS '07

We do most cordially invite you to attend this formal opening exhibit, whereat all the surprises the Spring season promises in fashion will be unfolded.

Like the rose, the first premonition of its perfect bloom being seen in the tiny bud, which gradually unfolds new beauty each day until it is full blown, so it is with our Easter Opening. New glimpses of style spring forth daily until the showing reaches its perfect bloom when we have gathered together the blossoms of the markets, making possible our established custom of presenting to the public at one grand sweep all that is new in Women's and Children's fine wearing apparel.
